

## Creating an MFL Mind Map

The dual language feature in Widgit Online is great for creating resources to aid the teaching of Modern Foreign Languages (MFL). This guide shows how to make a French mind map.

### ✓ After making this resource you will be able to...

- Log into your account and access the **Grids**
- Select an appropriate **Dual Language Template**
- Fill in the **Template**
- Make changes to the **Document**
- Save the **Document**
- Print the **Document**

This activity will take you approximately **5 minutes** to complete.

## Log In

1. Go to the URL:  
[www.widgitonline.com](http://www.widgitonline.com)  
and **Log In** .

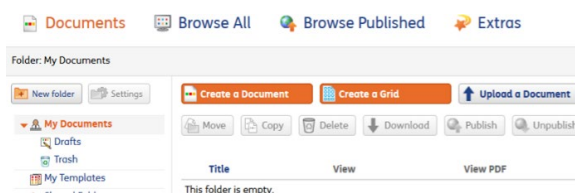

### Log in to Widgit Online

The screenshot shows a login form with the following fields and options:

- Email address or group ID/username:
- Password:
- Remember Me:
- [Forgotten your password?](#)
- 

## Find the Correct Template

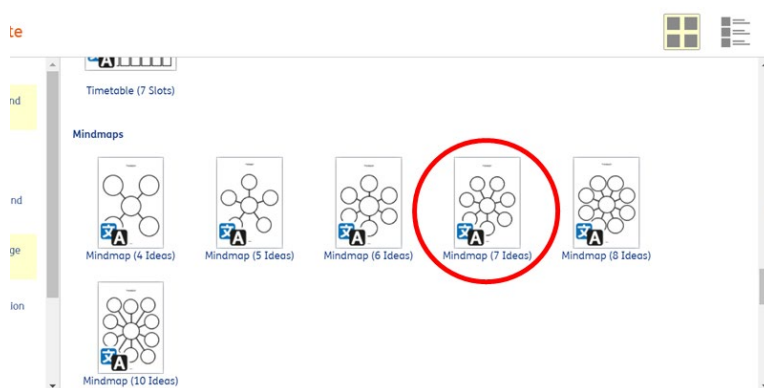

2. Select **Create a Grid**.

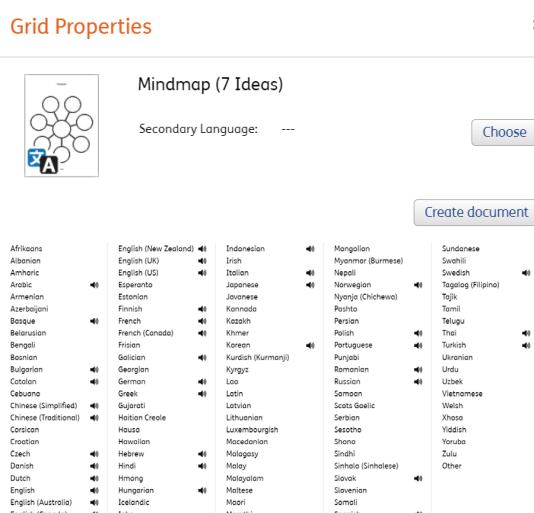

3. Select Dual Language Templates.

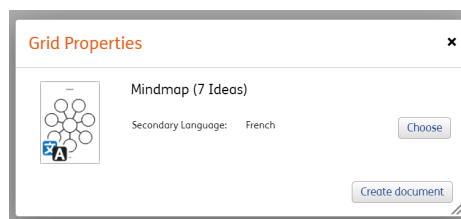

4. Scroll down to **Mindmaps** and click to select the required size.

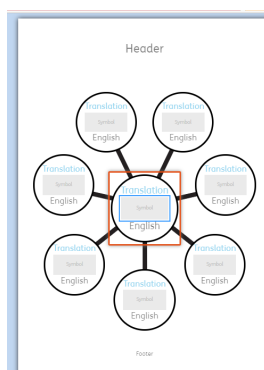

5. A pop-up will appear. Click **Choose** to pick your language choice and click to select the language from the list.

6. Click **Create document**.

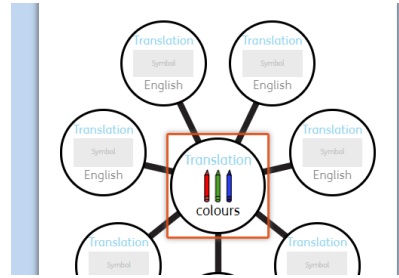

7. You will now see your template.

## Create the Document

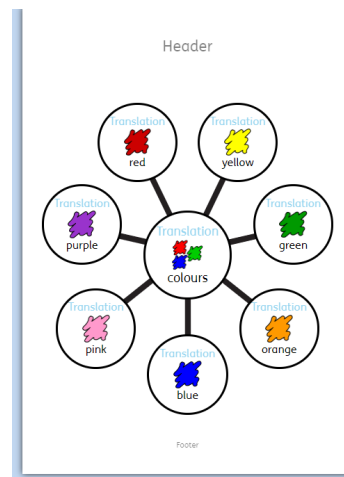

8. Click in a circle to add text to the English section.

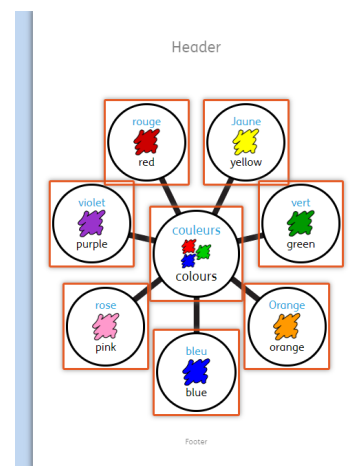

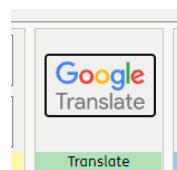

9. Some text may symbolise with the incorrect symbol for your precise meaning. Use the **Symbol Chooser** on the left-hand side to pick your preferred choice.

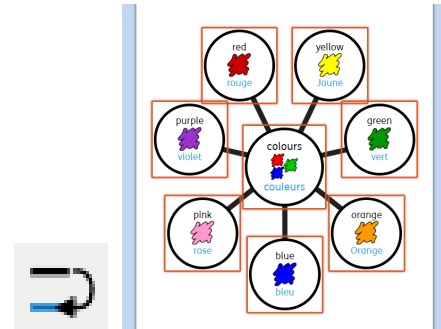

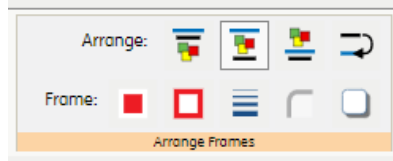

10. Continue to fill in all the circles. You can also fill in the Header / Footer, but equally you can leave this blank.

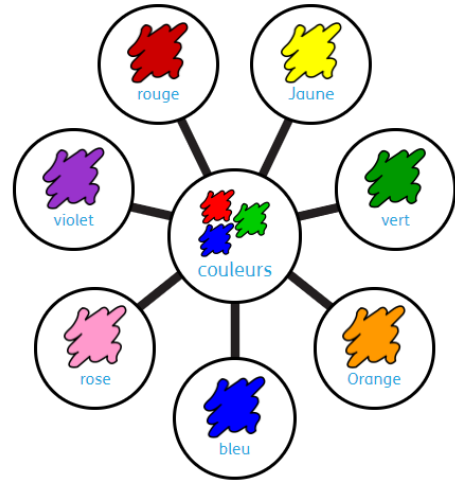

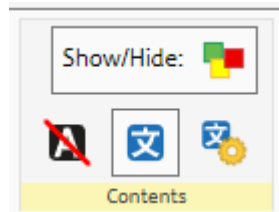

11. **Select** all circular cells by clicking and dragging across. Click the **Google Translate** button in the **Formatting Tab**.

12. To swap the text positions, click the swap button in the **Arrange Frames** of the **Formatting** tab.

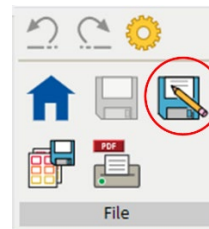

13. To only show the MFL text, click on the **Show/Hide Text** button in the **Contents** section of the **Formatting** tab.

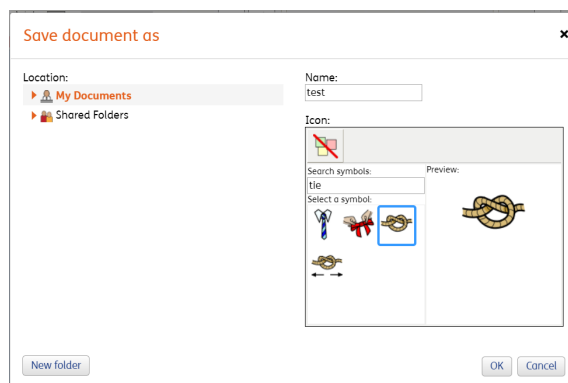

## Save and Print the Resource

14. To save the document click on the **Save As** icon.

15. Choose the **Location** to save the resource in from the left-hand side. Type a **Filename** in the box, and you can also choose a symbol for the file (optional). Click **OK** to save.

16. To print a document, click the **Print as PDF** icon. Click **View PDF** on the pop-up window. You can then send to your printer.
