

Instructions

These cards can be used in a number of ways, to help children learn more about the countries in the 2022 Football World Cup in Qatar:

- **Classic trading game:** Player chooses one of the yellow sections, this is compared with other player (eg tallest mountain), the player with the highest number wins.
- **Challenge variation:** Pupil who won the cards can offer the loser chance to win back - can they say one both of the blue facts for the given country eg A player with France has beaten a player with Japan, they offer them the chance to win their cards back: "I have France, what is my capital city and language?"
- **Simplified variation:** Pupils just have to guess one or both of the blue sections, given the country name, to win the card.
- **Open challenge:** Give the pupils the packs of cards and ask them to create their own games.
