Apple Boats

Method

5

Use

felt tips

or

crayons

to

decorate

the

sail

6

Place

large cocktail stick

into

centre

of

apple

half

7

This

=

the mast

8

poke

the mast

through

the sail

9

Place

apple

boats

into

tray

of water

10

Whose

boat

is the fastest?

11

What

other

fruits

could

be

made

into

boats?

Apple Boats

Conclusion

 Objects less dense than water float.

 Objects more dense than water sink.

 Apples float because they are less dense than water.

 This is because there is air inside the apple.

Safety

warnings

1

 Supervise young children

2

 Caution with sharp knives

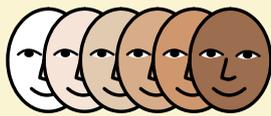

InPrint³

Design personalised symbol materials to print

This resource pack was created using InPrint 3.

With access to over 20,000 Widgit Symbols, 100s of editable templates and a range of powerful design features, InPrint 3 customers can edit and amend all ready made resources, customise symbols and content, as well as create their own visual supports.

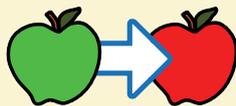

Change Skin Tone

Change the skin tones of any symbol to make your materials more personal.

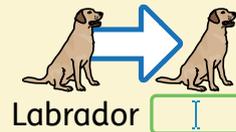

Add Your Own Pictures

Personalise your materials by adding images from your computer or the web.

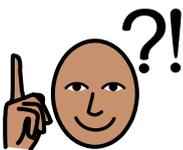

Change Symbol Colour

Tweak the colour of any Widgit Symbol to make your content more relevant.

Change Symbol Text

Edit the text beneath a symbol to make your content more specific or personal.

You have downloaded a PDF of the resources.

Would you like to edit these PDF Resources?

If you subscribe to InPrint 3 (IP3), and download the IP3 version of the resources, you can edit or tailor the content to meet your needs.
