

Contents

Occupations and Places is a pack which aims to help students to understand concepts about occupations and the places where people work. Symbols about occupations and places follow the same rules so students can make sense between different concepts (eg. actor/theatre & postman/post office). An excellent pack for foreign students but suitable for others as well.

Flashcards Occupations

48 flashcards about occupations

Flashcards Shops

36 flashcards about places

Match Jobs with Places

Activity where children can cut out and match the person with the places he or she works

Match Object with Occupation

An activity to help students to have a better understanding about jobs and the focus of each job

Match Occupation with Word

Draw a line to match the symbols with the words

Match Place with Word

Draw a line to match the symbols with the words

What Does the Shop Sell

An activity where students are asked to cut out and stick, or draw a line between, the shop and what it sells

Where Do They Work

Draw a line between the occupation and the place of work
