Waste

that is not

recycled

is buried

in landfill sites.

Waste

in landfill

harms

the environment.

Recycling

is

a good way

to save energy

and

save money.

Recycling

is

a good way

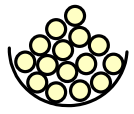

to care for

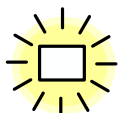

the environment.

 Lots of  materials  can be  recycled.

 These materials  include  paper,  glass  and  metal.

 Some  materials  can't be  recycled.

 Recycling  is processed  and  turned into  new things.

**27<sup>000,000</sup> M**

  
 UK households throw away 27 million tonnes of rubbish a year.

**45%**

  
 Only 45% of our rubbish is collected for recycling.

**80%**

  
 Up to 80% of a car can be recycled.

**70%**

  
 70% of people would like to recycle more.

 Up to **50%**

 of our rubbish
 
 could be
 
 composted.

 Up to **60%**

 of our rubbish
 
 could be
 
 recycled.

**£100**

 of aluminium
 
 is thrown away
 
 annually.

 Plastic
 **100**

 of years
 
 to decompose.

Most

household

items

can be

recycled.

Buy

items

that

can

go in

mixed recycling.

Try not to

buy

hazardous

or

toxic products.

Make sure

you use

recycling bins

at home.

Most

food waste

can be

turned into

compost.

Grass cuttings

can be

used

to fertilise

the soil.

Plants

and

flowers

can be

grown

in

used pots.

Trees

naturally recycle

CO<sub>2</sub>

which helps

the environment.

Many towns have recycling centres.

Many schools have recycling schemes.

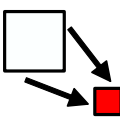

You can join community projects such as litter picking.

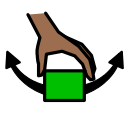

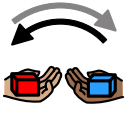

You can save money and buy from charity shops.

  
 It is good to buy things with less packaging.

  
 Use a lunch box instead of a plastic bag.

  
 Swap your old toys with friends.

  
 Use rechargeable batteries instead of ordinary ones.

We can

recycle

many

different

items.

Try to

recycle

as much as

possible.

Recycling

means

less

waste

is buried

in landfill sites.

This is good

for the future

of

our planet.
