

How to Use Restricted Symbols

Widgit Online comes with restricted or explicit symbols included. These are switched off by default but can be switched on, on a temporary or a permanent basis.

1. With an open blank document, click on the **Tools** tab and **Symbol Settings**.

2. You will see the Wordlist pop-up, if the **Topic** Wordlist tab is not already selected, then click to choose this tab. Click the More Options drop-down.

Symbols and Wordlists
