

Printing from Widgit Online

In order to print a Widgit Online document there are several possible methods:

From Within the Document

1. Click the **printer icon** to send the documents to your printer. This will open a printer pop-up, for you to select the settings. The appearance of the pop-up will depend on your printer.

2. Click **Print to PDF**. A pop-up will confirm when the PDF is ready.

Click **OK** to go back to the document or **View PDF** to see the PDF. You can then send this to your printer, in the same way you would with other PDFs.

View PDF

A PDF version of the document has been created.

[How do I print two-up?](#)

OK

From the Documents List

Click on the PDF icon - this will open a PDF of the document ready to print (as in method 2 above).
