Copyright conditions on distribution of materials containing Widgit Symbols

This information refers to the use of symbols from the Widgit Symbol set.

- Printed documents (books, materials, leaflets, posters etc.)
- Documents to print where symbols are embedded in third party applications (e.g. PDF, MsWord etc.)
- In signage and notices
- On websites, where the symbols are embedded into the web page

Symbols are copyright and cost a great deal to develop and maintain. We therefore have to ensure that people who use symbols pay an appropriate amount for their use. Where the user already has a licence for the symbols, and the files can only be accessed through licenced copies of the software, there is no additional charge for the use of the symbols e.g. a file for Communicate: In Print.

Where the symbols are provided in a different format, either electronically or in print form, including on a website, charges may be payable.

Allowance for non-chargeable distribution of documents containing symbols

For licenced holders of our software, a small amount of printed or web based symbol documents may be given away. These can be distributed without any payment provided the total number of symbols in all resources, as a cumulative total, does not exceed 100 different symbols. If distribution is on a larger scale, please apply for specific permission.

Commercial use

Any customer wishing to sell resources containing Widgit Symbols must apply for specific permission. **Please note charges will be payable.**

Acknowledgement

Each resource, whether free or for sale must carry an appropriate acknowledgement on each separate document or individual sheet that might be used separately, prominently stating that the symbols are:
