

Saving Wordlist Changes

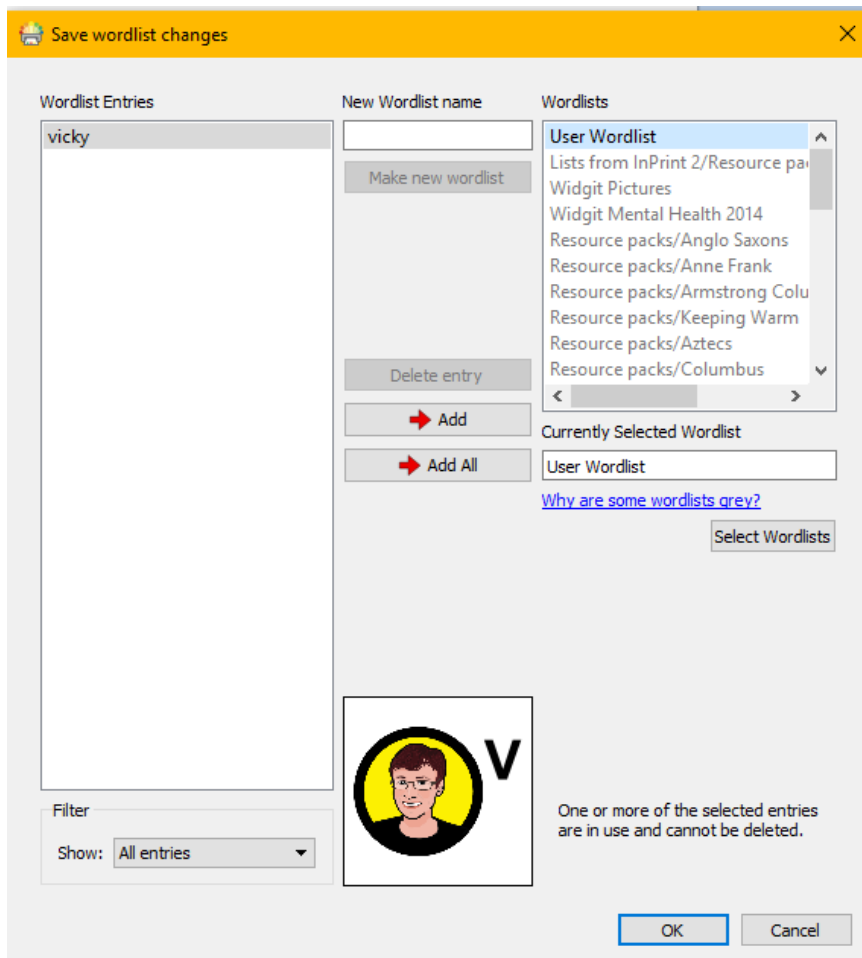

While you are writing a document, you may add your own vocabulary by:

- Changing the **Words** for a **Symbol**
- Changing the **Image** for a **Word**
- Changing the **Colours** in a **Symbol**

Such changes will be saved to the current document.

You may also decide that you would like to save your changes to use in other documents. You may also wish to simply remove wordlists entries from the document.

You can save and manage your symbol changes, and create new wordlists by selecting the **Symbols Tab** and clicking **Save Symbol Changes**.

Wordlist Entries Panel

In the panel on the left, titled **Wordlist Entries**, you will find the new symbols that have been created in your document. What you can see in this panel is dependent on the **Filter** drop-down box underneath.

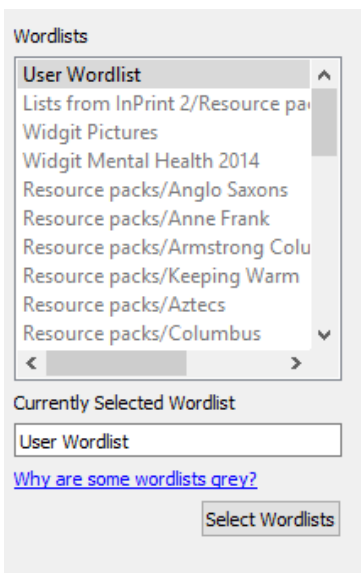

When **All entries** has been selected, you will see all of the entries that you have made.

When **Entries in use** has been selected, you will see all of the entries that you have made that are currently in your document.

When **Entries not in use** has been selected, you will see all of the entries that you have made but are not currently in your document.

Wordlists Panel

In the panel on the right, titled **Wordlists**, you will see a list of all of your **Topic Wordlists**. The **User Wordlist** will always be loaded. When a **Wordlist** is grey, it means that the **Wordlist** is not currently loaded. You can load a **Wordlist** from this dialog by clicking the **Select Wordlists** button that will take you to the **Symbols and Wordlists** dialog.

Create New Wordlist

You can also create a new **Wordlist** using this dialog. To create a new **Wordlist**, type a name for the new Wordlist into the space underneath **New Wordlist Name** and then click **Make new wordlist** button
