

How to Log In

To Start

Go to the URL: www.widgitonline.com and click **Log In**

Log in

Individual Accounts

Individual account users can log in using the email address entered during the subscription process, or their User ID.

Example: user.sarah/sarah

Log in to Widgit Online

Email address or group ID/username: ?

Password:

Remember Me:

[Forgotten your password?](#)

Group Accounts

Group account users can log in using the name of their group followed by a forward slash '/' and their username.

Example: widgit/james

They can also log in with an email address if they have provided one in their account details.

Only Administrators are required to supply an email address, this is optional for Users and Managers. However, we do recommend that Managers also use their email address, as this allows them to more easily access our support staff, should this be required.
